## GOLD IN NEW CALEDONIA.

**REPORTED DISCOVERIES.**

About a week ago rumours and reports as to starting "fads" of gold-bearing stone in New Caledonia were circulated through Sydney; but by the time information as to real facts had been obtained from the M.M.S. Armand Bahic, recently from Noumea, there arrived in Sydney Mr. Paulon Le Coureur, formerly the superintendent of A.U.S.N. Company, both in New Caledonia and Western Australia, who for many years past has been a good deal of practical instructor seemed to have some good evidence. His statement may be given in his own words:—

"Some few weeks before I left Noumea I heard report that some exceedingly rich specimens of gold-bearing stones had been brought into the town, and had been analysed by the Government chemist, who had made careful tests and assays, and had divulged the results. Mr. Moore is an

Shuman, a very popular and clever man, who is employed by the Government, took a fairly definite shape, and the cause it was commonly alleged that Mr. Moore's friends had yielded to the Government's demands for a \$25,000 reward, were as dubious as avarice, and, therefore this would mean a man who was avaricious and a Government Analyst said that, although he was at liberty to mention the exact results of his investigation, he would not do so, as it appeared to have already partly become known, and the specimens submitted had actually gone into the hands of the Government Analyst. Mr. Moore's results came well authenticated in the possession of the place from which the specimens were taken, and the Government Analyst, a disgraced convict, attacked his friends by suddenly and mysteriously acquiring much wealth, and it was supposed that he had been in the country for a few weeks, and then returned and more prodigal than ever, and this was a puzzle to the Government Analyst, and the Government Analyst from was quite satisfied. At last, the Government Analyst was slowly and bit by bit, but in a very circum-

at Caledonia, in a district called Oueba, which is a bad and savage country, inhabited by a fierce and numerous lot of natives. No white man, so far as I was aware, had ever set foot there, and I was not allowed to return. The district is tabooed to the natives except any infringement. This country, I observed, was the home of the black magic, and some fellow, had secretly made his way into the forbidden district in search of the poldich he had heard was to be found there, and had brought back several specimens, which he had sold to the jeweller in Noumea. Like the pitcher to the pot, I told, however, he had gone once more to the forbidden district to get more natives. The specimens, or some of them, were sent to Mr. Moore, and with the results I have named: but when this occurred, I was not present. I am now, I understand that a considerable interval has elapsed. That is the story, and I give it to you for what it is worth.

**STATE CHILDREN'S RELIEF BOARD.**

The monthly meeting of the State Children's Relief Board was held at the boardroom, Richmond, on Tuesday, Monday, yesterday. Present—The Hon. Sir Arthur Kennick, M.L.C., Mr. Garran, Mr. Slattery, Mrs. Dinshaw, and the Hon. W. J. Martin, M.L.C.

It was reported that since the last meeting of the board 65 children had been admitted and 35 discharged, leaving at the present time 37 of these children under the care of the board. It was also stated that there were 14 children boarded up with their mothers under the name of the State Children's Relief Act of 1896. The amounts amounting to £1516 14s had been passed for payment. The sum of £53 6d had been collected from contributing parents and others since the last meeting of the board, and deposited to the credit of the fund.

It was also reported that the sum of £100 for

restoration of children to their relatives were it left, seven being refused and five granted. The following applications for the custody of 586 children were considered, 34 being returned and 63 proved. The resignations of the following ladies were accepted with regret, viz.—Mrs. F. Latta, Miss P. Boyle for Jamboree, Mrs. M. Preston Campdenau. The undermentioned were appointed lady visitors, viz.—Miss H. B. Collins, Mrs. H. Horne for Dungog, Miss Gillivray for Hookwood, Mrs. E. Hland for Bugee, Mrs. Nathan for Hunter's Hill, Mrs. Dalgleish for Mount Pleasant, Mrs. W'Brien for Alexandria. Mrs. Clark reported on her visit to the children and homes at the Wollongong district, and also on her inspection of the cottage homes at Mittagong and Parramatta.

(From the "Newtown Independent.")  
 Our reporter received instructions to call upon  
 Mrs. Elizabeth Boldra, of 61 Prospect-street,  
 Newtown, Sydney, to obtain from her a relation of  
 the circumstances attending the death of her son,  
 who had suffered. That lady invited the newspaper  
 man to her parlour, and willingly answered the  
 queries put to her.  
 "My son," she said, "was martyred to neuralgia," she ex-  
 claimed, "I never thought I should ever get rid of it.  
 Sometimes the agony was so unendurable that I felt  
 I could have knocked my head against the wall."  
 "Acute darting pains, which would flash round  
 the head and face and all over my jaws like light-  
 ning." In addition to this, I often had a cold, wear-  
 ing  
 "I suppose you obtained but little rest."  
 "Indeed, that is so. The night was worse than the  
 day."

[illegible]

Yes, four months of such suffering as I passed upon leaves its mark on one, I can tell you. I was half the woman I am now.'  
 But what effect had the unusual remedies on your complaint?

None—none at all. At last I came to believe that I must have recourse to the medicine. At last I found relief, which came about in this manner. Some one said to me, 'Do you know that Clements Tonic will cure that sort of ailment, of yours in a week if you take it?' I bought a bottle, and I took it. Some one said I thought over what had been told, and bought another bottle, not that I expected to get much more benefit than I had received from the hundred and one bottles I had taken before.

In this case, however, you got relief.' I

I got more—more than had been a temporary relief—I got a permanent cure. I was enabled to resume my sewing in the past, and after a few days the pain had so decreased that I was enabled to get that refreshing sleep which was so necessary to me.

ment became very rapid. My colour began to  
be back. I had a healthy appetite again. Clement  
made me do in a way that would have sur-  
prised me. I was greatly surprised. I was  
feeling which had been the result of my long  
of pain. Then the time came when the pain  
was no longer so severe. I was pleased.  
I took a few more doses of Clement's Tonic and  
I was so lively and fresh as I could wish, and I  
told you that it is not only a pleasure but also a duty  
to take Clement's Tonic. I am sure that you  
hear of anyone suffering from nervousness or

## SPECIAL CABLES.

FROM THE "HERALD'S" LONDON CORRESPONDENTS.

## THE DREYFUS CASE.

## GENERAL MERCIER'S EVIDENCE.

LONDON, April 24. Further evidence given before the Court of Cassation by General Mercier, who was Minister for War at the time Captain Dreyfus was convicted, has been published.

In re-examination, General Mercier admitted that he withheld from the Court-martial a telegram sent by Colonel Panizzardi, the Italian attaché, asking the authorities at Rome to deny that relations existed between Captain Dreyfus and Italy if none did exist.

Later.

M. Hanotaux, who was Minister for Foreign Affairs when Dreyfus was convicted, deposed before the Court of Cassation that he felt a patriotic anguish at the prospect of diplomatic difficulties arising out of the case. He persistently endeavored to prevent the trial. He was unaware of the communication of the secret dossier.

M. Chincholle deposed he heard Major Esterhazy declare that he wrote the dossier, having been ordered to do so, and that he received 80,000 francs in one year from General Billot, the Minister for War in the Cabinet of M. Meunier.

M. Boringer has called the attention of the French Senate to the illegality of secret communications of the proceedings in connection with the court-martial.
